Evgenii Churin

Full-Stack Developer

SUMMARY

Full-Stack Developer with an M.Sc. in Information Systems and over a decade of broader IT background. For the past three years I've been turning Figma designs into shipped production sites with React, Next.js and Astro — end-to-end from design to deploy, including payments, multilingual setups and AI assistants. Currently frontend lead on a 13-locale event platform and maintainer of ai-agents-arsenal on npm.

ZAB Statement of Comparability
Russian M.Sc. assessed at German Master's level · Bonn, 2024 · Reg. L2023/469035

German B2 (CEFR) damago GmbH · 2025

Cisco CCNA — Routing & Switching
Cisco Networking Academy · 2014–15

WORK EXPERIENCE

Freelance Full-Stack Developer

Self-employed · Remote (Germany) · 05 / 2025 – Present

— **Level Up Championship 2026 —** flagship client; frontend lead. Designed and built level-up-championship.com, a 13-locale event site with payments, gallery and promo landing for a pan-European hairdressing championship. Stack: Next.js, React, TypeScript, Tailwind, Radix UI.

— Architected modular i18n with a context-window-optimized translation workflow; cut AI token cost by a factor of ten.

— Lighthouse: PageSpeed Mobile 72 → 94, SEO 100, Best Practices 100.

— Built the registration and payment flow (SumUp checkout, webhooks, email confirmations) that converts social-media leads.

— Now building an AI assistant (Claude, AI SDK) that answers participants via Telegram, web chat and email.

— **Harmony Hairstyle Academy —** coloring-course site: SumUp checkout, payment webhooks, scheduled order reconciliation on a Cloudflare Worker cron, automatic course access via email and Telegram.

— **Mariana Vais —** Astro brand site for a beauty mentor: animated testimonial deck, no-JS carousel, course pages, SumUp payments.

— **Open source —** published @evgenest/ai-agents-arsenal on npm: a TypeScript/Bun CLI that installs skills and MCP servers into 8 AI coding agents (Claude Code, Cursor, Codex, …) in one command.

— **EVGENEST Achievements —** open-source Cloudflare Worker that turns a week of GitHub activity into an AI-written report and sends it to Telegram.

— **evgenest.dev —** personal portfolio on Astro with a frame-accurate scroll-driven hero video, hosted on Cloudflare.

— Client portal — my own client portal, built and run on Convex.

— **Personal project —** HotelPulse, a production-style booking service: one API in .NET 10 and Laravel 13, PostgreSQL, RabbitMQ outbox, Redis, Nuxt 4, integration tests, Docker, Kubernetes.

Software Development Intern

ccc software gmbh · Leipzig, Germany · 09 / 2024

— Contributed to feature development for industrial-automation products using Angular and .NET / C#.

Software Developer

Octonica · Yekaterinburg, Russia · 09 / 2014 – 06 / 2015

— Independently designed and built a data-synchronization service for enterprise order processing in .NET / C#.

— Built alerting and monitoring with PowerShell, Bash and Linux tooling.

Technical Support Specialist

Mostinfo · Yekaterinburg, Russia · 02 / 2011 – 05 / 2011

— Set up e-reporting systems for government authorities; issued digital signatures.

Additional History

Russia → Ukraine → Germany · 2015 – 2022

Non-IT period: customer service and sales (Euroset, Tinkoff Bank, eCall), shift lead of a 10-person warehouse team (Husky, Kyiv), own short-term rental business (Lviv). Relocated to Germany in 2022, reached German B2 and returned to IT.
